Focused on Complex Tax ▶

We advise businesses, investors and private clients on complex UK tax matters, including cross-border issues. Our three core services cover business structures, private wealth and transactions.

- ▶ Tax planning for royal families and internationally mobile high-net-worth clients

A man and a woman in business attire are standing in a modern office, looking at a tablet together. The woman is on the left, wearing a dark blazer over a light top and a pearl necklace. The man is on the right, wearing a dark suit and tie. They are both looking down at a tablet held by the woman. The background shows a glass-walled office with a desk, a plant, and a chair. The text "Built for clients with complexity." is overlaid in large white font, with a small teal triangle at the end of the word "complexity".

Built for clients with complexity.

We advise privately owned businesses, entrepreneurs, families with significant wealth and international clients with UK interests.

Privately Owned Businesses & Entrepreneurs

Ambitious, growth-focused businesses and their founders. We advise at every stage of the business lifecycle – from structuring through growth to exit and succession.

Ultra-High-Net-Worth Individuals & Families

We provide holistic, long-term personal tax planning for individuals and families with significant wealth – including multi-generational succession planning and international tax considerations.

International & Cross-Border Clients

We advise internationally mobile individuals, international owner-managed businesses and overseas investors with UK interests – including royal families and mid-cap international groups.

Professional Intermediaries

We work closely with accountants, solicitors, wealth managers, family offices and private banks as a trusted specialist referral partner. We provide the depth of tax expertise their clients need, whilst supporting – not supplanting – the wider advisory relationship.

Partner-led Always. ▶

Your engagement is led by a partner from the first conversation through to delivery.

You receive direct access to their expertise, clear recommendations and advice grounded in your commercial priorities.

What this means in practice:

- ▶ A partner leads your engagement.
- ▶ Recommendations explain the key assumptions, risks and next steps.
- ▶ Clear communication and agreed timelines.
- ▶ Advice informed by your wider business and personal objectives.
- ▶ Close coordination with your other advisers.

Technical rigour,
